\*MSD sewer problem at 201 First Street has been repaired by Cincinnati MSD.

\*Fire Hydrant Quotes between 140 and 190 Main Street – There was discussion on the Village Solicitor's legal opinion that clarified the Water Board was responsible for the pipes and getting the water to the fire hydrant and council was responsible for the hydrant. The Water Board had received one quote and would seek additional quotes no action was taken. Councilwoman Pillow stated that council may want to seek quotes for the necessary repairs to the hydrant.

\*Water Maintenance Service Tags (door hangers) the Water Board Clerk obtained one quote and was awaiting two additional quotes no action taken by the Board at this time.

New Business

\*MSD sewer problems reported at 76 Main Street and 64 Main Street – MSD had crews out to make the necessary repairs. The Board directed the Water Board Clerk to contact MSD for in the future to let the Water Department know when they are in the village to make repairs.

\*Sewer lid at 17 Main Street – the Water Maintenance Men reported that it appears the contractual road crew might have damaged the meter lid. The Board discussed having pictures taken of the damaged meter lid.

\*Broken glass on the Water meter at the TLC car wash in North Bend. Former Water Operator Bill Wickman stated that the broken glass doesn't have anything to do with reading the meters – the reading so should okay.

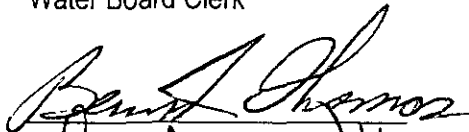

\*Fire Hydrant at 350 Three Rivers Parkway in North Bend is leaking. North Bend Council is aware of the leak and has advised that it is scheduled to be repaired. Former Water Operator Bill Wickman stated that the Board should be taking the readings because that's what Village Solicitor Kelly wanted was a meter so that the Board could bill North Bend for water used that wasn't charged to customers it's a part of the Contract the current Board members to look into the matter.

\*Water bill format – the Water Clerk showed an example to the Water Trustees for a different look for the monthly water bills. The new format will show water base fee, water usage charge, and sewer base fee – Mr. Walton suggested that on the line for the water base fee it include (2000 gallons) Water Board Clerk to work with TAK to see what can be added or changed.
