Water Maintenance will be flushing hydrants on the following dates:

- July 28 th, 2023 (Friday late night into Saturday early am)***
- October 22 nd, 2023 (Friday late night into Saturday early am)***
- December 29 th, 2023 (Friday late night into Saturday early am)***

Please allow faucets to run clear before using the water as sediment sometimes will remain in the pipes after the flushing process. It is also advised to try not to use the water during the time the lines are being flushed, while it is not unsafe in any way, this could cause more sediment to enter your lines. If you have additional questions or concerns, please email Lisa at [ewalker \[at\] addystonohio.org](mailto:ewalker@addystonohio.org).

****All flushing dates are tentative and may change due to weather conditions, etc. Notices will be sent out at least 7 days in advance of flushing.*
